

Protocol Support List February 11, 2020

This is the current protocol library that ships with Nozomi Networks Guardian™ as of February 11, 2020.

The Nozomi Networks Engineering Team regularly updates the protocol library to increase the extensibility of Guardian. This protocol support enables Guardian to process and analyze data produced by your devices and equipment quickly.

Don't see your protocol here?

Ask us and we can build it for you! Or check out our Protocol SDK if you'd like to build it yourself.

About Nozomi Networks

Nozomi Networks is the leader in OT and IoT security and visibility. We accelerate digital transformation by unifying cybersecurity visibility for the largest critical infrastructure, energy, manufacturing, mining, transportation, building automation and other OT sites around the world. Our innovation and research make it possible to tackle escalating cyber risks through exceptional network visibility, threat detection and operational insight.
